

Cancer Screening QI PenCS Masterclass

For clinical staff

Northern Queensland Primary Health Network (NQPHN) invites you to attend a webinar presented by PenCS.

In this workshop, PenCS will demonstrate how to use CAT4 and Topbar to assist you with Quality Improvement (QI) activities as part of the Cancer Screening CQI program.

In addition to addressing the CQI goals directly, PenCS will demonstrate specific CAT Plus Cancer Screening Recipes.

**There are two sessions to choose from, the content will be the same in each session. There will be a 10-minute virtual break in each session.*

Learning outcomes

- Prevention and early detection of cancer.
- Detection of under-screened or never screened patients.
- Improving your practice data quality.
- Clinical decision support for cancer screening.
