

Cancer screening: Breast

Collaborative quality improvement, education,
and enhanced capacity

BreastScreen Mackay in partnership with Northern Queensland Primary Health Network (NQPHN), invite GPs and their practices to attend a targeted educational evening focusing on cancer prevention, screening, early intervention, and management.

Strong evidence supports that a recommendation from a GP can lead to a sustainable increase in participation in the BreastScreen Queensland program.

Presenters:

- Wendela Schimmer – Clinical Director, BreastScreen Mackay
- Dr Jennifer Charnley – General Practitioner, BreastScreen Mackay.

Learning outcomes:

- define the breast screening clinical pathways
- describe the procedure methodologies and techniques used in the BreastScreen Queensland Program
- differentiate between screening mammography and diagnostic mammography.

DATE

Thursday 22 October 2020

TIME

Registration: 5.30pm
Program: 6pm–9pm
