

Certificate IV in Mental Health

**Health Workforce
Queensland**

Health Workforce Queensland and Northern Queensland Primary Health Network are partnering to provide opportunities for primary care or community care services to upskill employees through the completion of a Certificate IV in Mental Health.

This course provides participants with skills in rehabilitation and support for people affected by mental illness. More information about the course including time commitment, delivery method, practical placement requirements, and units of study are available at

www.healthindustrytraining.org/courses/certificate-iv-mental-health/

A limited number of opportunities are currently available to cover the enrolment fees of key staff who would benefit from completing this Certificate course. Potential candidates will need to address the eligibility criteria via the Expression of Interest link.
