

Your Invitation

Medicinal Cannabis in the Treatment of Chronic Pain and PTSD

Dinner Meeting- Thursday 13th May 2021

Time: 6pm registration to 9.15pm

Venue: Jam Corner restaurant, Loft room, 1 Palmer St, Sth Townsville

Presenters: Dr Peter Georgius Pain Specialist & Rehabilitation Physician (Sunshine Coast) & Dr John Rogers, Psychiatrist (Townsville)

Learning Objectives

1. To understand the role of Medicinal Cannabis in treating Chronic pain and how to prescribe in a variety of clinical settings
2. Insights in treating PTSD with medicinal cannabis and options to help DVA patients that are seeking alternative treatment options
3. Case studies – Learn from the experience of pain specialist, Dr Peter Georgius in treating chronic pain and Dr John Rogers in treating Veterans PTSD with Medicinal Cannabis

Dr Peter Georgius
Pain Medicine Specialist FFPMANZCA
Rehabilitation Physician FAFRM, MBBS, BMedSc
Director of the Sunshine Coast Clinical Research

Dr Georgius has been based in Noosa since 2008 and conducts clinics, performs procedures and is a Consultant in both hospital and community based locations around the Sunshine Coast. He offers a comprehensive, multi-disciplinary and individualised treatment plan for patients with Chronic Pain and Complex conditions. As an expert in advanced Pain management procedures Dr Georgius has a strong interest in all aspects of musculo-skeletal and neurological rehabilitation. He is regularly asked to give lectures and is the principal investigator of clinical studies involving neuromodulation and pharmacology.

Dr John Rogers
Local Psychiatrist MB, ChB MRCPsych FRANZCP

Dr John Rogers is a local and well-known Psychiatrist amongst the GP's in Townsville. He has practiced in the UK, New Zealand and Australia and was a Senior Psychiatrist at Townsville public hospital. Dr Rogers has been in private practice in Townsville since 1993 and has a special interest in Veteran mental health especially PTSD. He has more recently been interested in accessing Medicinal Cannabis for patients as the results reported have been positive and encouraging
