

Influenza 2022, adult vaccination, AIR, and more!

This update aims to provide general practitioners and nurses with current immunisation information.

Learning outcomes

- Understanding the importance of the 2022 Influenza Vaccine program.
- Identifying high-risk target groups for Influenza vaccination.
- Vaccinations for adults – who is funded?
- All vaccine service providers should have Australian Immunisation Register (AIR) access.

Presenters

The update will be presented by Public Health Nurses from the Mackay Public Health Unit:

- Yvonne Vickers
- Natalie Tibbles
- Rachel Waye.

This event will be run twice in-person with the option to attend via videoconferencing available when registering online.

Catering supported by Pfizer.
