WHEN AND WHERE

As a part of the development of the Torres and Cape Suicide Prevention Community Action Plan (SPCAP), Northern Queensland Primary Health Network (NQPHN) in partnership with Beacon Strategies invites sector stakeholders, community members and people with a lived experience from Seisia, New Mapoon, Bamaga, Umagico and Injinoo to participate in a series of focus group sessions

The sessions aim to understand the needs, issues, strengths and opportunities of suicide prevention in the Torres and Cape region and capture the opinions, experiences and input of all stakeholders. The workshops will be facilitated by Beacon Strategies with support from local agencies.

This Meeting will be a specifically tailored for **lived experience representatives** - anyone who has been directly impacted by suicide, whether they are an individual person or family member.

We are holding other workshops specifically for community members, sector professionals and HHS staff.

Find out more information about this project by visiting www.torresandcapespcap.com.au.

Who	Where	When:
Lived experience representatives - anyone who has been directly impacted by suicide, whether they are an individual person or family member.	NPA Regional Council Conference Room - New Mapoon.	Date: Tuesday 31st of May 2022 Time: 2pm - 4pm

COMPLETE THE SURVEY

Can't make it but still want to share your thoughts? [Click here](#) or scan the QR code.

If talking or reading about suicide brings up thoughts that are troubling, you can find quality resources and by accessing 'Head to Health' (<https://www.headtohealth.gov.au/>). If you or someone you know is in immediate danger, please call 000 or visit your nearest hospital emergency.
