viral hepatitis & sexual health workforce

Practical Updates in HCV Management and Treatment

What's new in the 2022 Hepatitis C Consensus Statement?

Date: Thursday 8th December 2022

Time: 6:15pm – 9:00pm (AEST)

Location: Pullman Cairns International, 17 Abbott Street, Cairns QLD 4870

Primary Care Providers and other health care practitioners interested in furthering their knowledge in hepatitis C should attend this free latest treatment update.

The session will focus on '*What's new?*' in the *Australian recommendations for the management of hepatitis C virus infection: a consensus statement (2022) prepared by GESA*. Case study discussions will explore how these updates and recommendations can be applied in clinical practice.

Target Audience: General practitioners, other medical practitioners, nurse practitioners, nurses and other clinicians involved in the management of hepatitis C.

Presenter:

Dr Darren Russell, Director of Sexual Health, Cairns Sexual Health Service, Cairns and Hinterland Hospital and Health Service

Learning Outcomes:

- Describe the latest recommendations regarding screening and diagnosis of hepatitis C
- Discuss DAA treatment label changes and the shortened testing pathway to confirm cure
- Explain how to manage dose interruptions of varying lengths in people receiving DAA therapy
