Health professional webinar

Thurs 27 July 2023
7:30PM-8:30PM
AEST

**What is the best nutrition advice
for people at various
stages of CKD?**

Eating the right foods may contribute to delaying the progression of CKD and may also affect how well an individual's kidney disease treatment works.

In this webinar A/Prof Kelly Lambert will discuss the role of nutrition in CKD, dietary recommendations for people at various stages of the disease and debunk common misconceptions about the renal diet.
