

Cold chain management update

For general practice staff

Northern Queensland Primary Health Network, together with Tropical Public Health Service (Cairns), invite general practice staff to an update on cold chain management.

Topics:

- Cold chain management requirements.
- Maintaining cold chain, including during power outages.
- Packing a portable esky according to cold chain requirements.

Participating general practices will receive a Sof-Pac insulated premium cooler bag to use in their practice.

This update will be presented by the Tropical Public Health Service's (Cairns) Public Health Nurses.

This session can be attended virtually by selecting the videoconference option when registering online.

Light refreshments will be provided.

Date

Thursday 26 October 2023
