Announcing the 2024 Workshop Theme: "Nourishing: a workshop exploring Nutrition, ethical considerations, communication and sustainable practice." along with many other exciting topics.

Requirement: Prior completion of a PPCS or QuoCCA course in perinatal, neonatal and infant palliative care.

Overall Learning Aim: To confidently care for neonates and infants with life-limiting conditions, and their families wherever they reside.

Relevance: The Advanced Neonates and Infants Workshop is aimed at all healthcare professionals with experience supporting and caring for our tiniest people with palliative care needs or receiving end-of-life care.
