

Share your experience

of child immunisation services in northern Queensland

Supported by

We are seeking to engage with community members, immunisation providers, and other services working with children aged 0-4 years and their families, to understand the barriers to accessing child immunisation services in northern Queensland.

Northern Queensland Primary Health Network (NQPHN), together with Beacon Strategies, will be hosting several consultation opportunities to hear from a diverse range of perspectives. We will be seeking to hear about your awareness and experiences of child immunisation services, what makes it easy or difficult to access these services locally, and opportunities to improve rates of immunisation in communities.

We invite you to join and share your perspective, and to share this opportunity with your networks so that we can engage widely with the community about this important issue.

Opportunities available

What	Where	When	Details
Survey	Online	Anytime	Click here to complete the survey or visit: https://beaconstrategies.snapforms.com.au/form/survey-understanding-barriers-and-enablers-for-child-immunisation-in-nq
