

WorkCover Queensland educational webinars

For staff working within general practices in the northern Queensland region

Northern Queensland Primary Health Network invite clinical and non-clinical general practice staff to participate in educational webinars delivered by WorkCover Queensland.

WorkCover Queensland will present two separate webinars in the month of July, focusing on general practice topic suggestions received via a recent expression of interest.

The first webinar will focus on clinical staff topics, with the second webinar focusing on non-clinical staff topics. Both presentations will have a Q&A opportunity for all participants.

Additionally, WorkCover Queensland will be visiting Mackay, Townsville, and Cairns in July. General practices have the option to express their interest on the registration form for an in-person visit.
