

Choose the right care

The best place to go for care depends on the level of care you need.

General Practice

This is your regular, trusted doctor. Your general practice should be the first place you go for all your health needs, except emergencies.

Many GPs are open outside standard business hours, including evenings and weekends.

Visit primary care for:

- ✓ All non-life-threatening health needs that can wait to be seen
- ✓ Any noticeable changes in your general health and wellbeing, including your mental health
- ✓ Annual exams, screenings, and health checks
- ✓ Immunisations
- ✓ Earaches, coughs, colds, fevers, and diarrhea
- ✓ Prenatal care
- ✓ Chronic disease management
- ✓ Muscle and joint pain
- ✓ Mild COVID-19 (telehealth appointment required)
