## Mental health

---

Item	Name	Description/Recommended frequency
792	Non-directive pregnancy support counselling	Professional attendance of <b>at least 20 minutes</b> in duration at consulting rooms by a medical practitioner who is registered with the Chief Executive Medicare as meeting the credentialing requirements for provision of this service for the purpose of providing non-directive pregnancy support counselling to a person who: (a) is currently pregnant; or (b) has been pregnant in the 12 months preceding the provision of the first service to which this item or items 4001, 81000, 81005 or 81010 applies in relation to that pregnancy

\*Many patients will not require a new plan after their initial plan has been prepared. A new plan should not be prepared unless clinically required, and generally not within 12 months of a previous plan. Ongoing management can be provided through the GP Mental Health Treatment Consultation and standard consultation items, as required, and reviews of progress through the GP Mental Health Treatment Plan Review item. A rebate for preparation of a GP Mental Health Treatment Plan will not be paid within 12 months of a previous claim for the patient for the same or another Mental Health Treatment Plan item or within three months following a claim for a GP Mental Health Treatment Review (item 277), other than in exceptional circumstances.

- + The recommended frequency for the review service, allowing for variation in patients' needs, is:
  - » an initial review, which should occur between four weeks to six months after the completion of a GP Mental Health Treatment Plan; and
  - » if required, a further review can occur three months after the first review.

In general, most patients should not require more than two reviews in a 12-month period, with ongoing management through the GP Mental Health Treatment Consultation and standard consultation items, as required.

## Recently updated video conferencing (telehealth)

---

Medicare Benefit Schedule (MBS) telehealth (video and phone) items are permanent and nationally available. Make sure you read the relevant item descriptions, fact sheets, and explanatory notes for [MBS telehealth services](#) on the MBS Online website.

MBS telehealth items have the same clinical requirements as the corresponding face-to-face consultation items and have the same MBS benefit.

Video services are the preferred approach for substituting a face-to-face consultation. You can provide some services by phone where clinically appropriate. Video and phone services have different MBS item numbers.

Telehealth attendance items can't be claimed for services provided to admitted hospital and hospital in-the-home patients, except for some psychiatry MBS telehealth items.

MBS telehealth items can't be used for email consultations.

Direct Medicare provider enquiries to [Services Australia](#).

## Chronic disease management (CDM)
