

My Health App

Download the my health app today

Download on the **App Store** | GET IT ON **Google Play**

Google Play and the Google Play logo are trademarks of Google LLC. Apple, and the Apple logo are trademarks of Apple Inc. App Store is a service mark of Apple Inc

The image shows a smartphone displaying the 'my health' app login screen. The screen features the Australian Government logo and the 'my health' logo. Below the logos, it says 'Enter PIN' followed by six empty circles for a PIN. The background of the phone screen is a stylized mountain range in shades of blue and green.

My health app, available for mobile and tablet, lets you view key health information which have been uploaded to My Health Record. You will need a myGov account linked to My Health Record and to have accessed your My Health Record at least once through a web browser.

Through this app, one can access their key health information that have been uploaded to My Health record such as

- Shared health summaries
- Discharge summaries
- Event summaries
- Prescription and dispense records
- Goals of care
- Specialist letters
- eReferrals
- Pharmacist Shared Medicines List
- Diagnostic imaging report

NQPHN acknowledges the Aboriginal and Torres Strait Islander peoples as Australia's First Nation Peoples and the Traditional Custodians of this land. We respect their continued connection to land and sea, country, kin, and community. We also pay our respect to their Elders past, present, and emerging as the custodians of knowledge and lore.

- Pathology reports Personally entered information
- Personal health summary
- Personal health notes
- Advance care planning documents other information

Other information

- Medicare Benefits Schedule (MBS), Department of Veterans' Affairs (DVA), Pharmaceutical Benefits Scheme (PBS) and Repatriation Pharmaceutical Benefits Scheme (RPBS) claims
- Australian Organ Donor Register decisions
- Australian Immunisation Register (AIR) records

New functionality has been introduced that allows consumers to

- Store electronic prescriptions
- View and manage your Active Script List
- Add emergency contacts
- Add, edit or remove Allergies and Medicines information in your My Health Record.

Please note: An 'Active Script Activation Code' needs to be sent to you by the Pharmacy to link your Active Script List to my health app, allowing you to view and manage your Active Script List.

The app also lets you share documents that contain your health information with other people or organisation.

The app can be downloaded from [App Store](#) or [Google Play](#).

my health app is an initiative of the Australian Government and is free.

Please visit this [website](#) for more information and to watch 'my health app-how to set up' YouTube video.

my health app privacy and security

Log in with your unique PIN if you use my health app on a shared device

Remember to log out of the app each time you use it

Be careful when sharing your health information using the app

my health app

New features

my health app includes new features:

- Store electronic prescriptions
- View and manage your Active Script List
- Add emergency contacts
- Add, edit or remove Allergies and Medicines information in your My Health Record.

*Please note that **my health** app is one of many applications that can support individuals in managing their health*

Benefits of my health app

No need to remember medical history and medicines information

Can view your medical history in one place

It may help to avoid unnecessary tests and scans.

Find and book a health service when needed

It may increase the quality of care received from healthcare providers

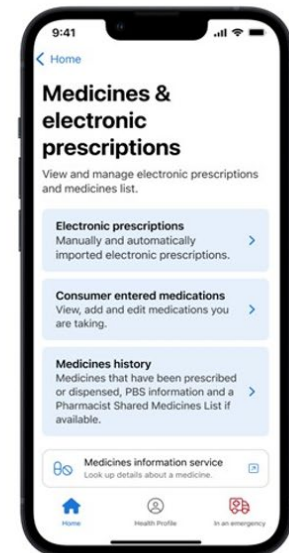

Access electronic prescriptions and check Active Script List

Medicines & electronic prescriptions

View and manage electronic prescriptions and medicines lists

Features:

- Add, share or delete electronic prescriptions
- Manage Active Script List/s and who can access them
- Add, edit or delete medications taken
- View medicines history displaying from a range of medicines information sources like prescribed and/or dispensed data.

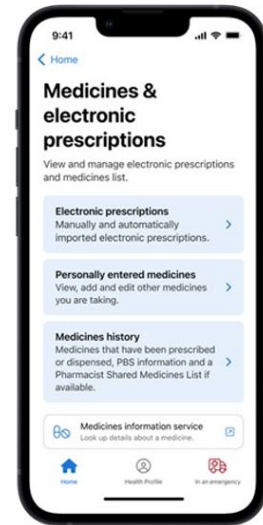

Active Script List (ASL)

View and manage ASL

Features:

- Link ASL to **my health** app by using an activation code provided by pharmacies and some GP's
- Un-link ASL when needed
- Manage which healthcare providers can access your ASL

Remember, ASL registration is still done at a pharmacy. Once registered, linking this service will be possible in the app.
