

MATERNAL MEDICINE

Conditions that complicate pregnancy care

SATURDAY 3 MAY 2025

This **one-day, live online course** will be presented by a wide variety of interdisciplinary specialists, together with maternal fetal medicine (MFM) sub-specialists to discuss case studies, and the latest evidence and key considerations for managing complications during pregnancy.

WHO SHOULD PARTICIPATE?

This multidisciplinary and interactive course is aimed at Obstetricians, Obstetric Physicians, GP Obstetricians, Trainees, Midwives and other doctors interested in maternal medicine.

TOPICS

- Cardiac complications in pregnancy
- Renal disorders in pregnancy
- Haematological complication in pregnancy
- Respiratory complications in pregnancy
- Diabetes in pregnancy
- Maternal autoimmune complications in pregnancy
- Infections in pregnancy
- Gastroenterology - Inflammatory bowel disease
- Maternal mental health

There will also be an opportunity for you to bring case-studies for further discussion.

CPD/CME information is available on our [website](#)

MAIN FACILITATOR

Associate Professor Kirsten Palmer is a clinician researcher. She is a maternal fetal medicine sub-specialist and heads the Maternal Fetal Medicine Unit at Monash Medical Centre, Monash Health; an incredible team of people that provide care for some of the most complex pregnancies in Victoria, Australia.

She is also Deputy Head of the Department of Obstetrics and Gynaecology at Monash University where she heads the Maternal and Perinatal Medicine Translational Research group.
