

Reports vs Clinical Audit Queries

What's the difference?

Overview

Primary Sense provides two distinct tools for data driven decision making in general practice:

- > **Reports:** Comprehensive, logic driven tools for clinical insights and quality improvement.
- > **Clinical Audit Queries:** Fast, simplified queries for patient recalls and operational tasks.

	Reports	Clinical Audit Queries
Purpose	Strategic planning, quality improvement, accreditation.	Patient recall, project enrolment.
Complexity	High detailed logic and processing.	Low, simplified logic.
Types	Summary and patient list reports.	Audit specific patient lists.
