

Issuing a Bowel Cancer Screening Kit to a Patient in Best Practice

You must record all kits handed to patients in the National Cancer Screening Register

1. Open patient file in Best Practice, then select **View> NCSR Hub** to review patients NCSR screening status.
2. Confirm that patient is eligible for screening.
3. Check patient details are correct.
4. Select **Choose a Form**, then select **Bowel Kit issued by Healthcare Provider** form. Complete form.
5. **Submit form** and then **print** it. The form can be found displayed under **Patient NCSR History**. Open the form titled NBCSP- Print/Re-print Participant Details Form, then print it.
6. Give the patient the **printed form and kit**. Instruct the patient to:
 - a) Add sample collection dates to the form and sign the form.
 - b) Place completed form and samples in the reply-paid envelope and post it.
 - c) If hot weather is expected, advise patient to take envelope directly to the post office.
