Demographic profile

NQPHN Primary Sense GP Data Dashboard

This dashboard provides a high-level view for performance monitoring and exploratory data purposes of GP data sourced from Primary Sense.

Chronic conditions page offers quality improvement insights based on condition
Complexity pages offer a management view from ACG complexity level perspective

PIP QI Dashboard

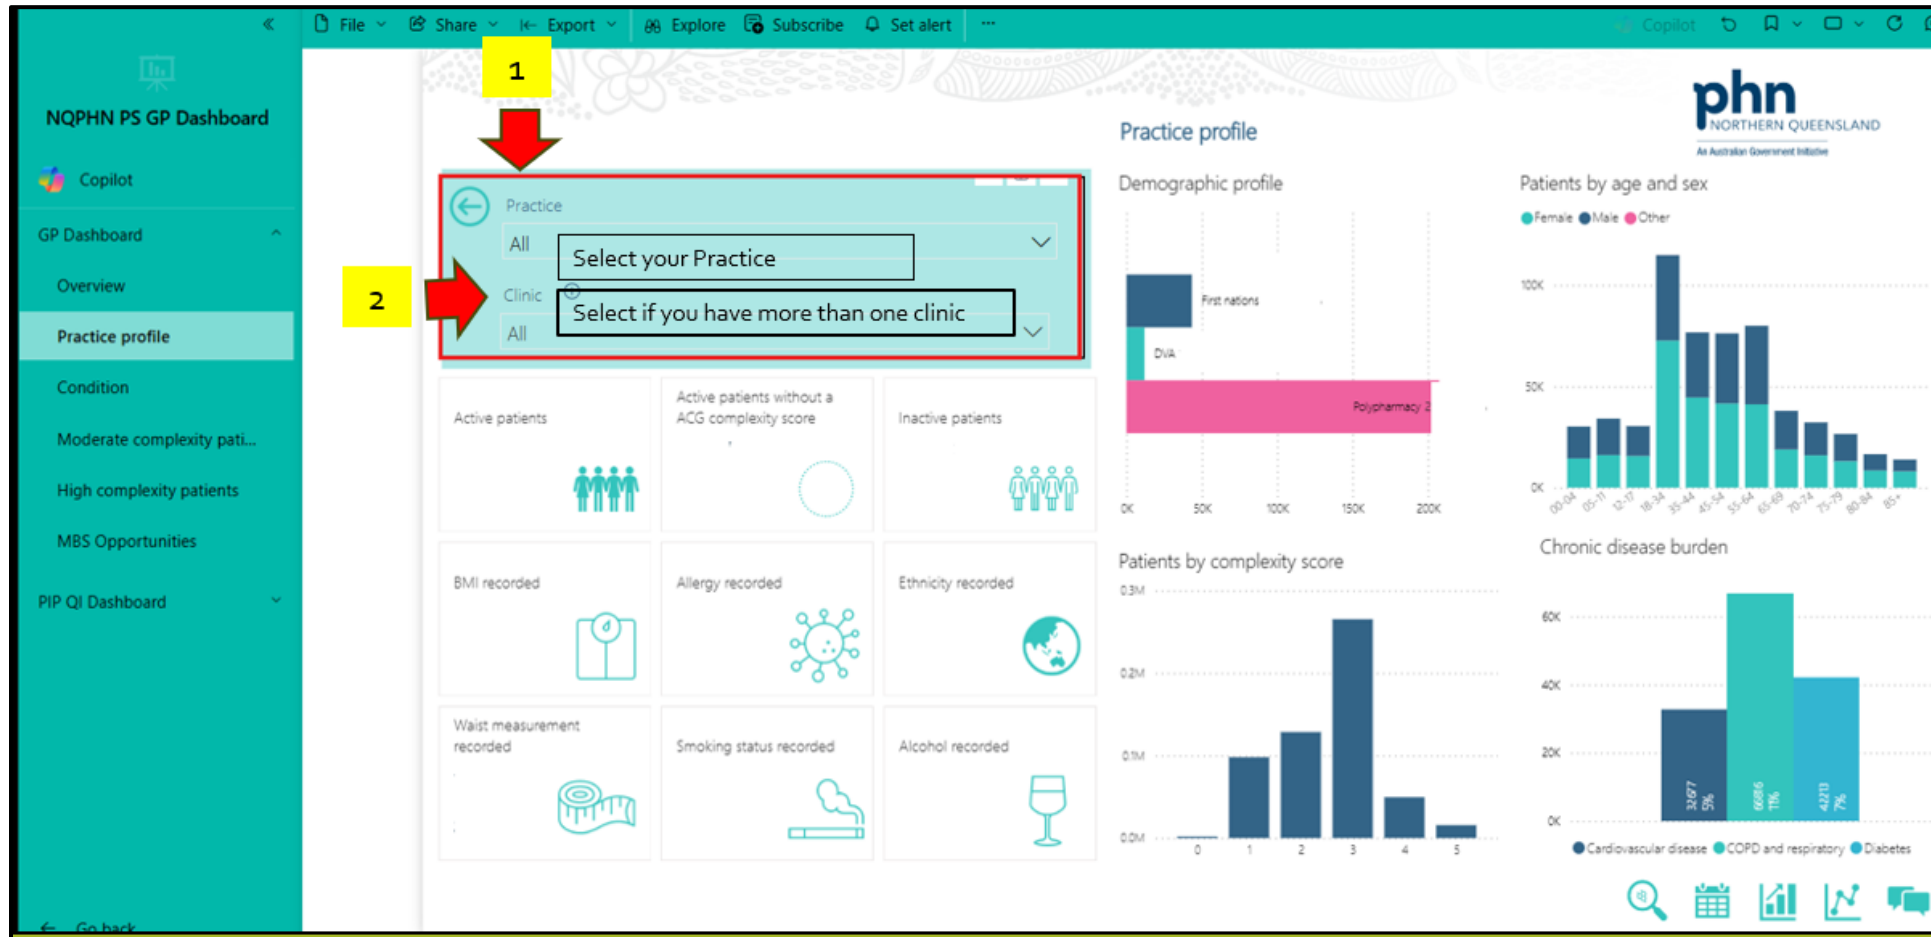

This dashboard provides a high-level view for performance and visualisation of the 10 QIMS and 2 Sub-QIMS.

It also provides view of trending and change between quarters.

Chronic Conditions and CQI

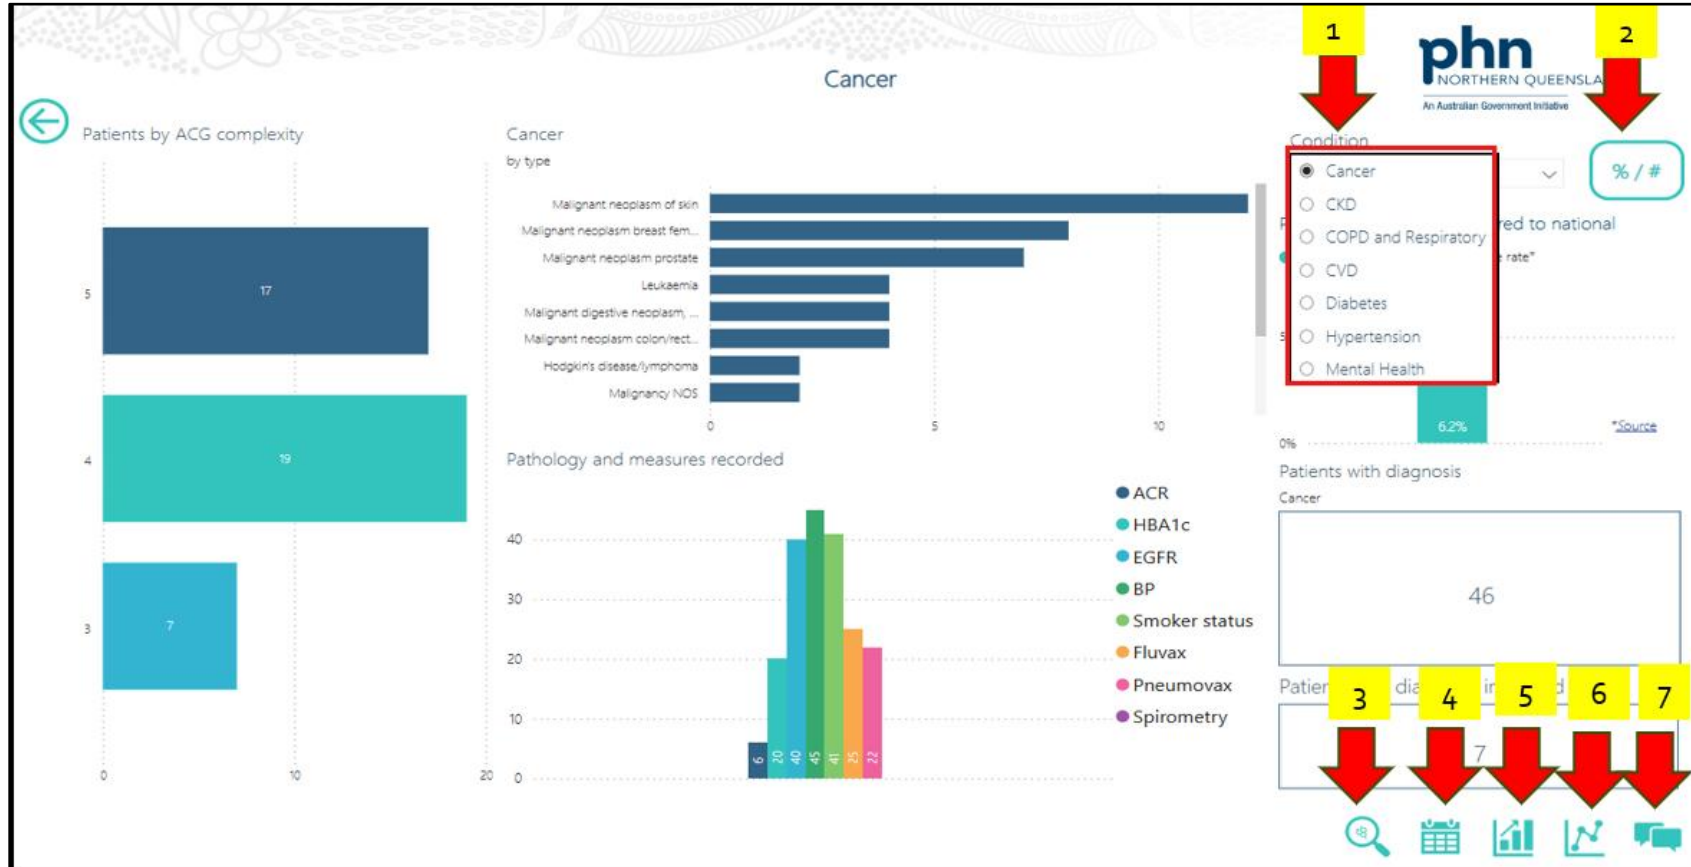

To monitor performance against conditions related measures

GP Data Dashboard – Practice profile

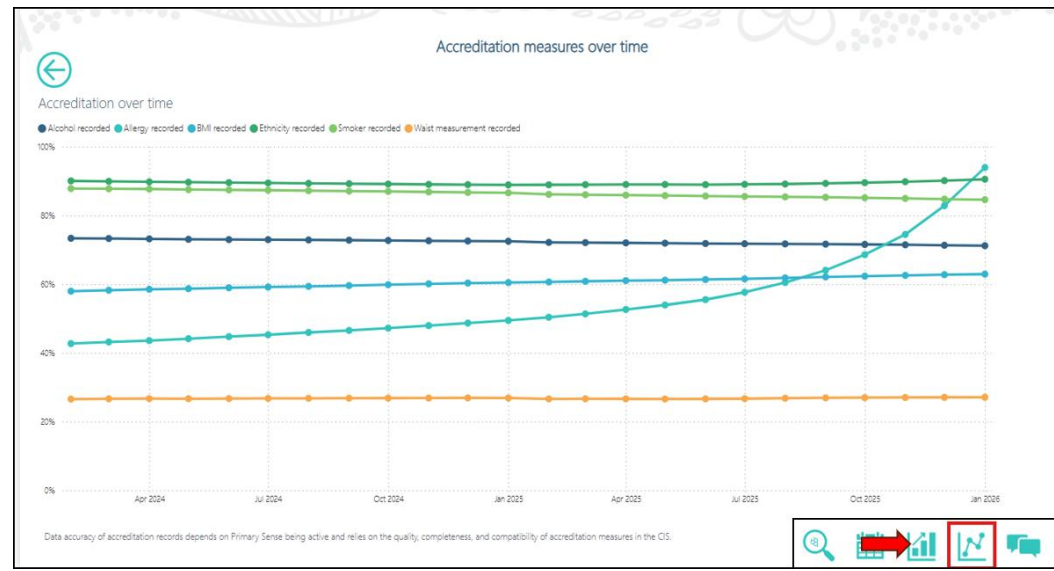

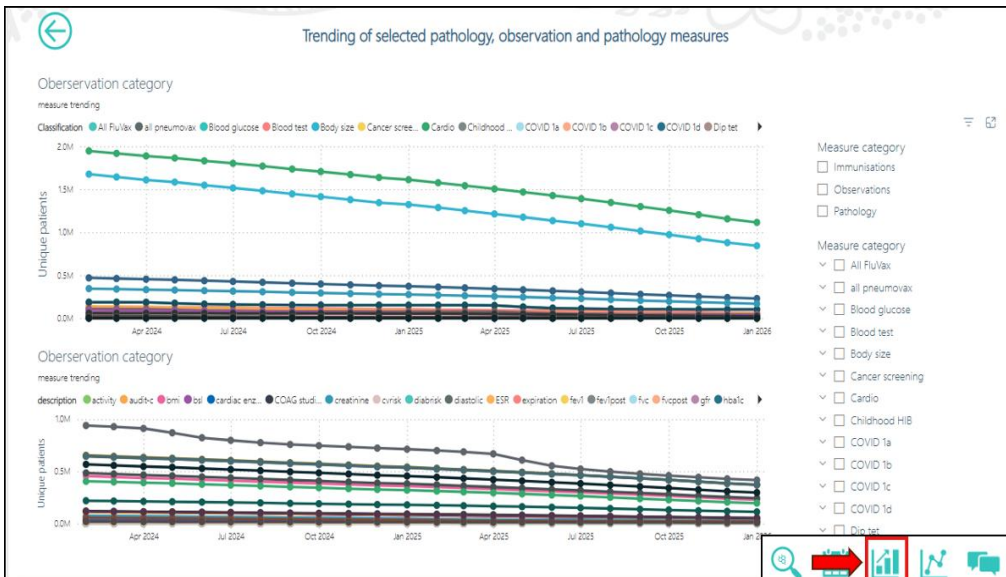

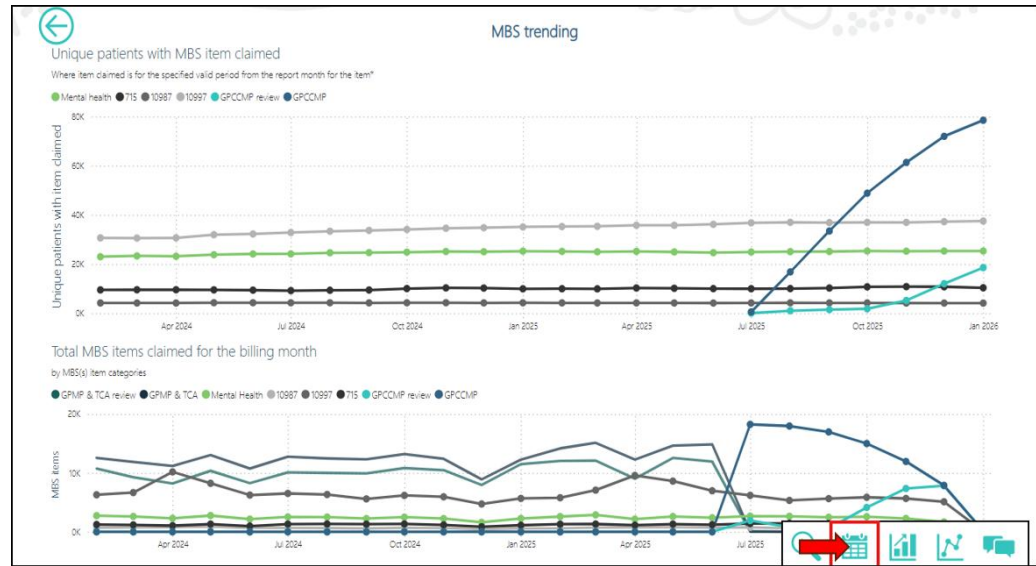

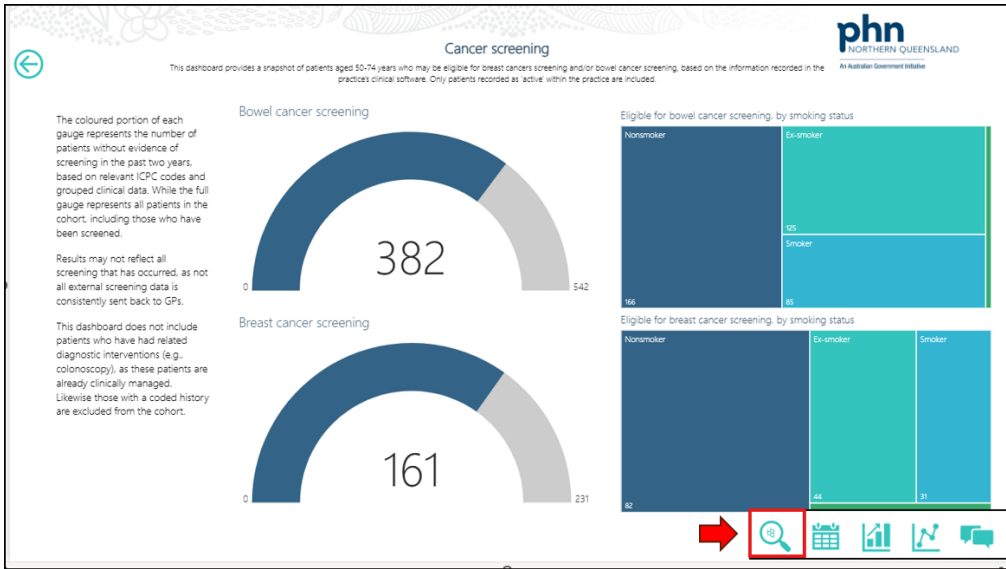

1. Select Your Practice
2. If you have more than one clinic, click here to select all or each clinic

Condition

1. Select a Condition
2. Click here to toggle between percentage or Numbers
3. For snapshot of patients aged 50-74 years who may be eligible for breast/bowel cancer screening
4. MBS Trending
5. Trending of selected pathology, observation and pathology measures
6. Accreditation measures over time
7. Click here to send NQPHN feedback on the dashboard

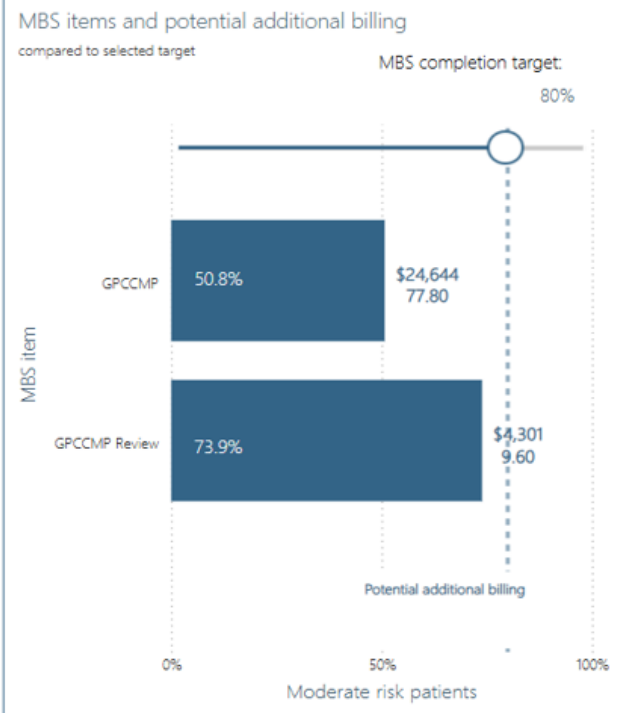

Moderate complexity patients

Moderate Complexity Patients

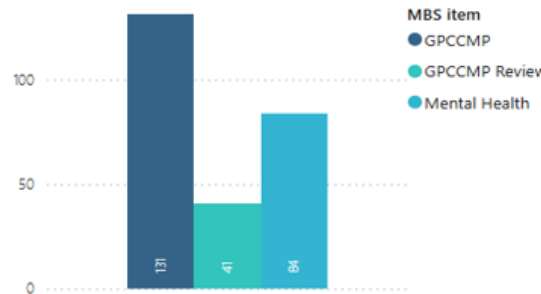

Patients with moderate complexity, e.g. an ACG level 3 available in *Patients with Moderate Complexity (level 3)* patient list

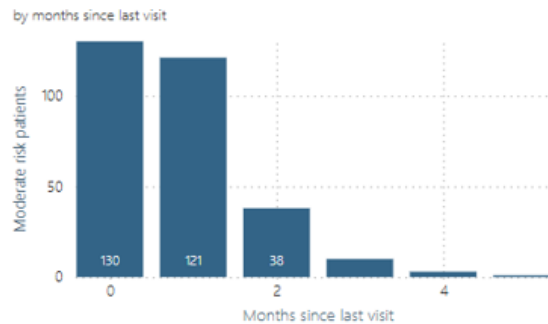

Moderate complexity patients

Estimate of MBS items due for moderate complexity patients

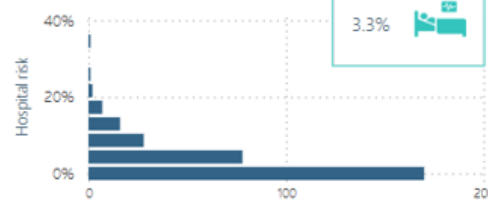

Number of moderate complexity patients by months since last visit

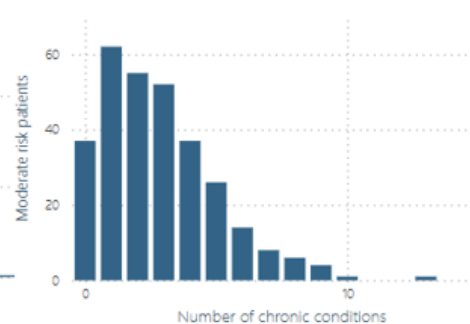

Patients with moderate complexity

303

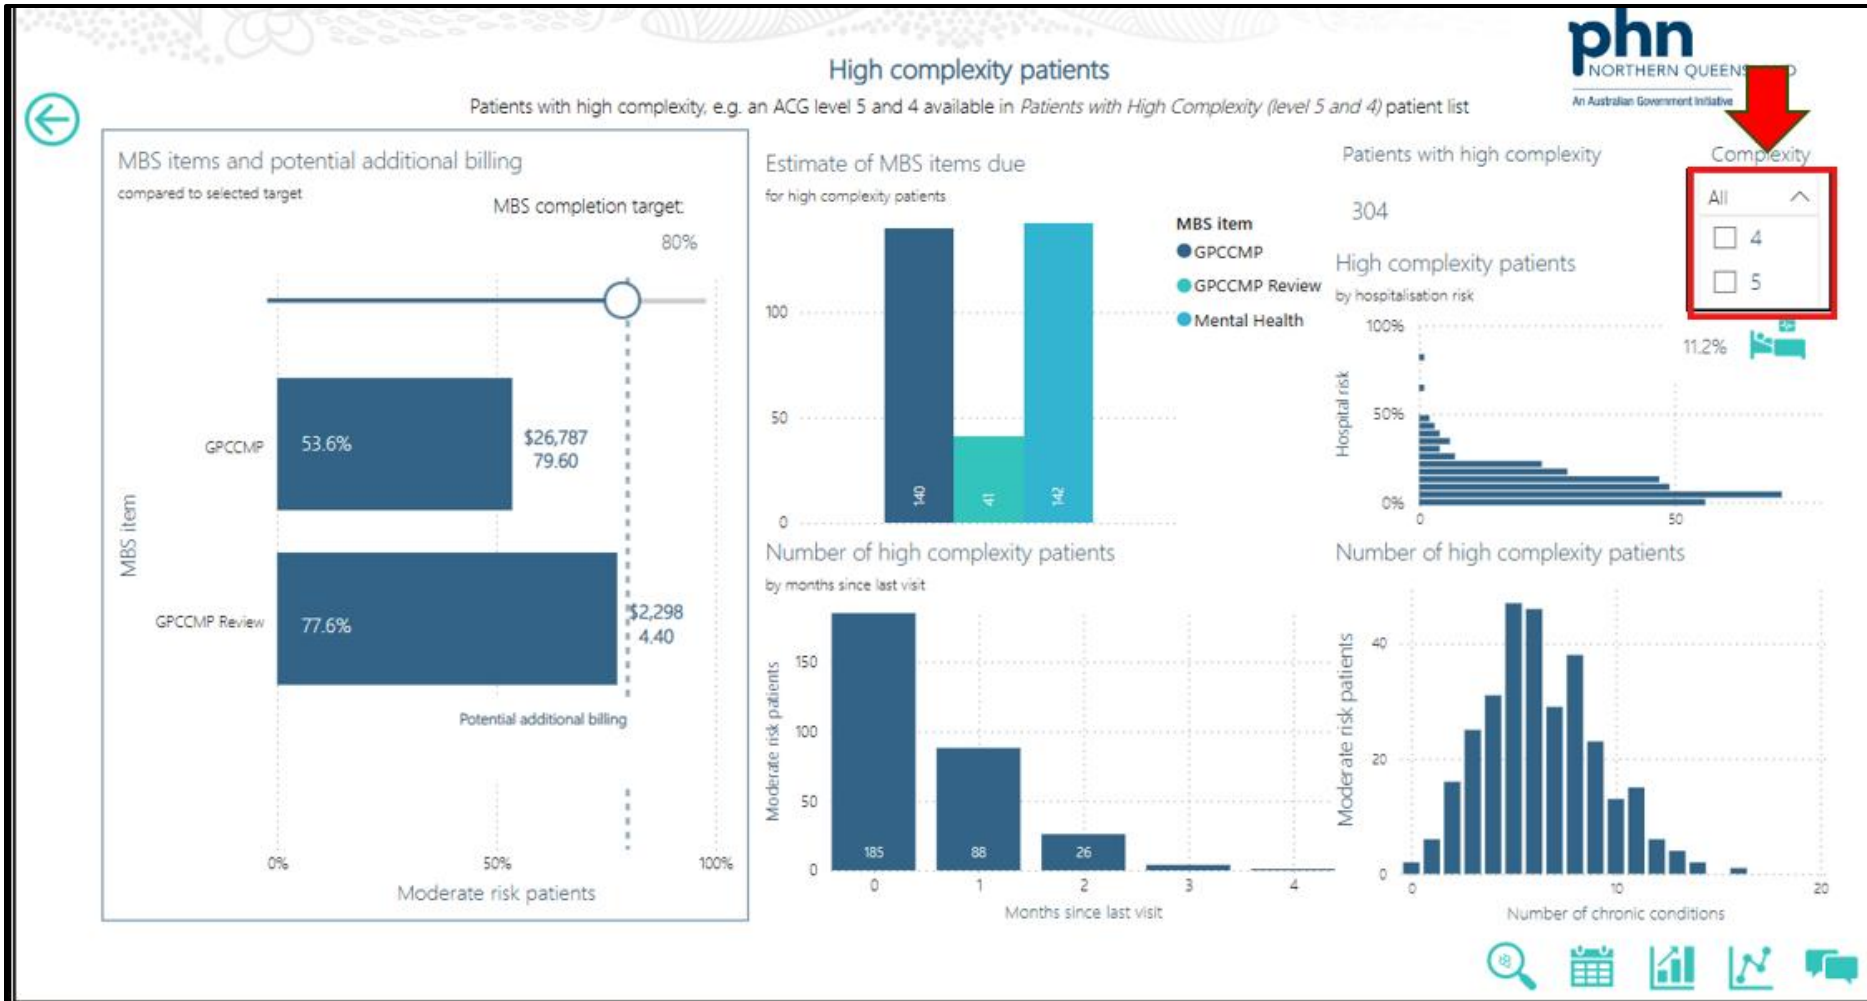

Moderate complexity patients by hospitalisation risk

Number of moderate complexity patients

High complexity patients

1. Complexity:
2. Select
3. 4 or 5 or All

MBA opportunities

1. Select Age Group
2. Select First Nations Patients Trending
3. Toggle between # and \$

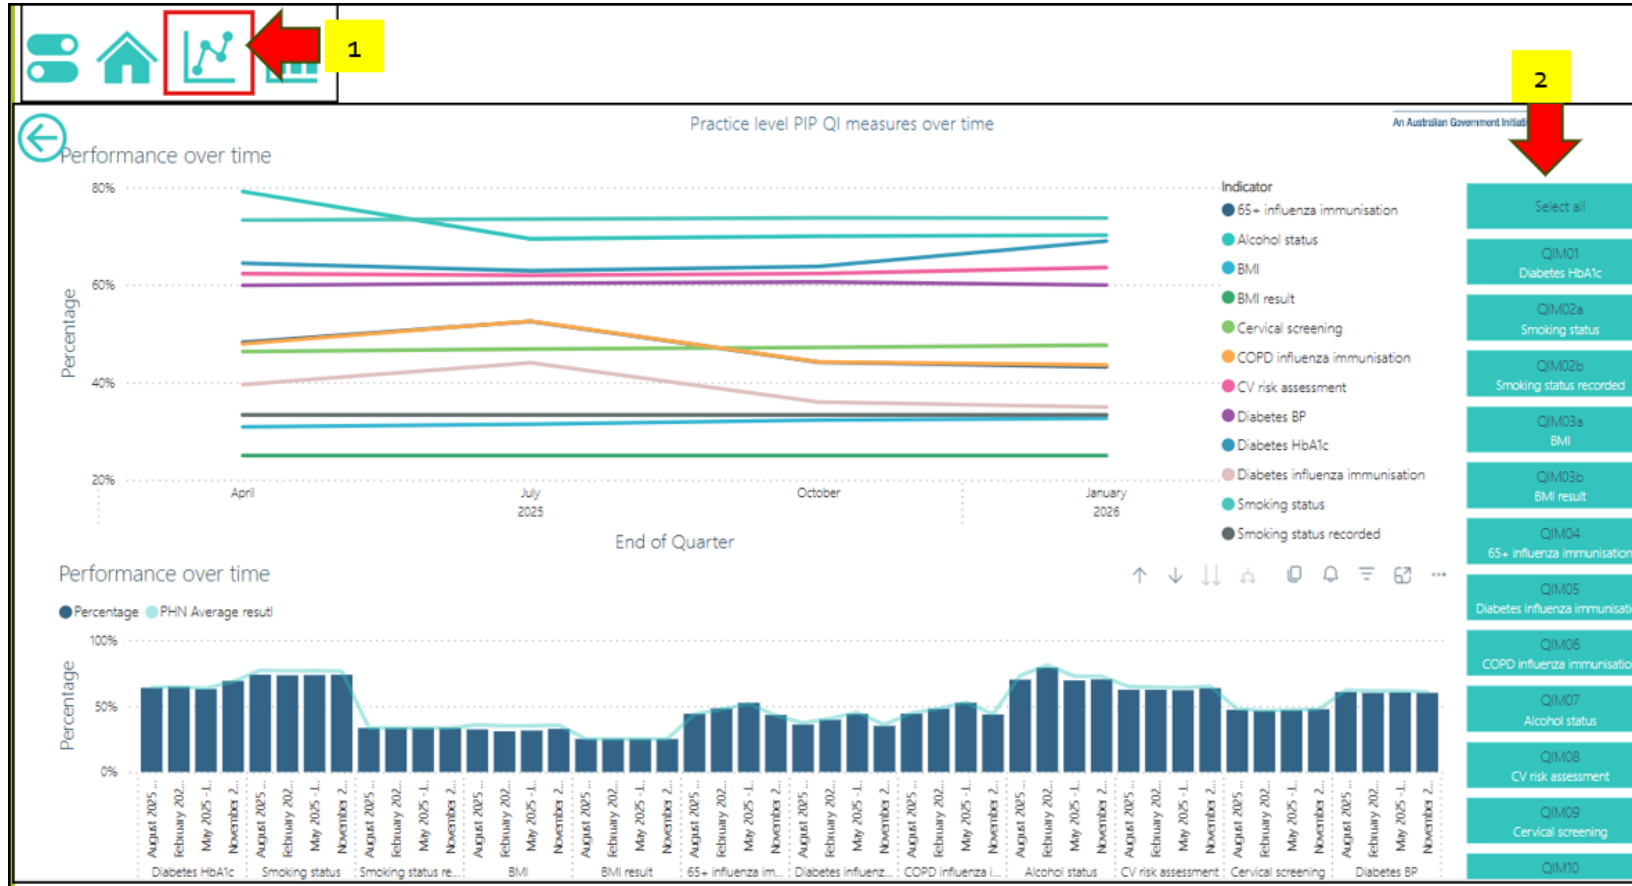

PIP QI Dashboard

This dashboard provides a high-level view for performance and visualisation of the 10 QIMS and 2 sub-QIMs. It also provides trending and change between quarters.

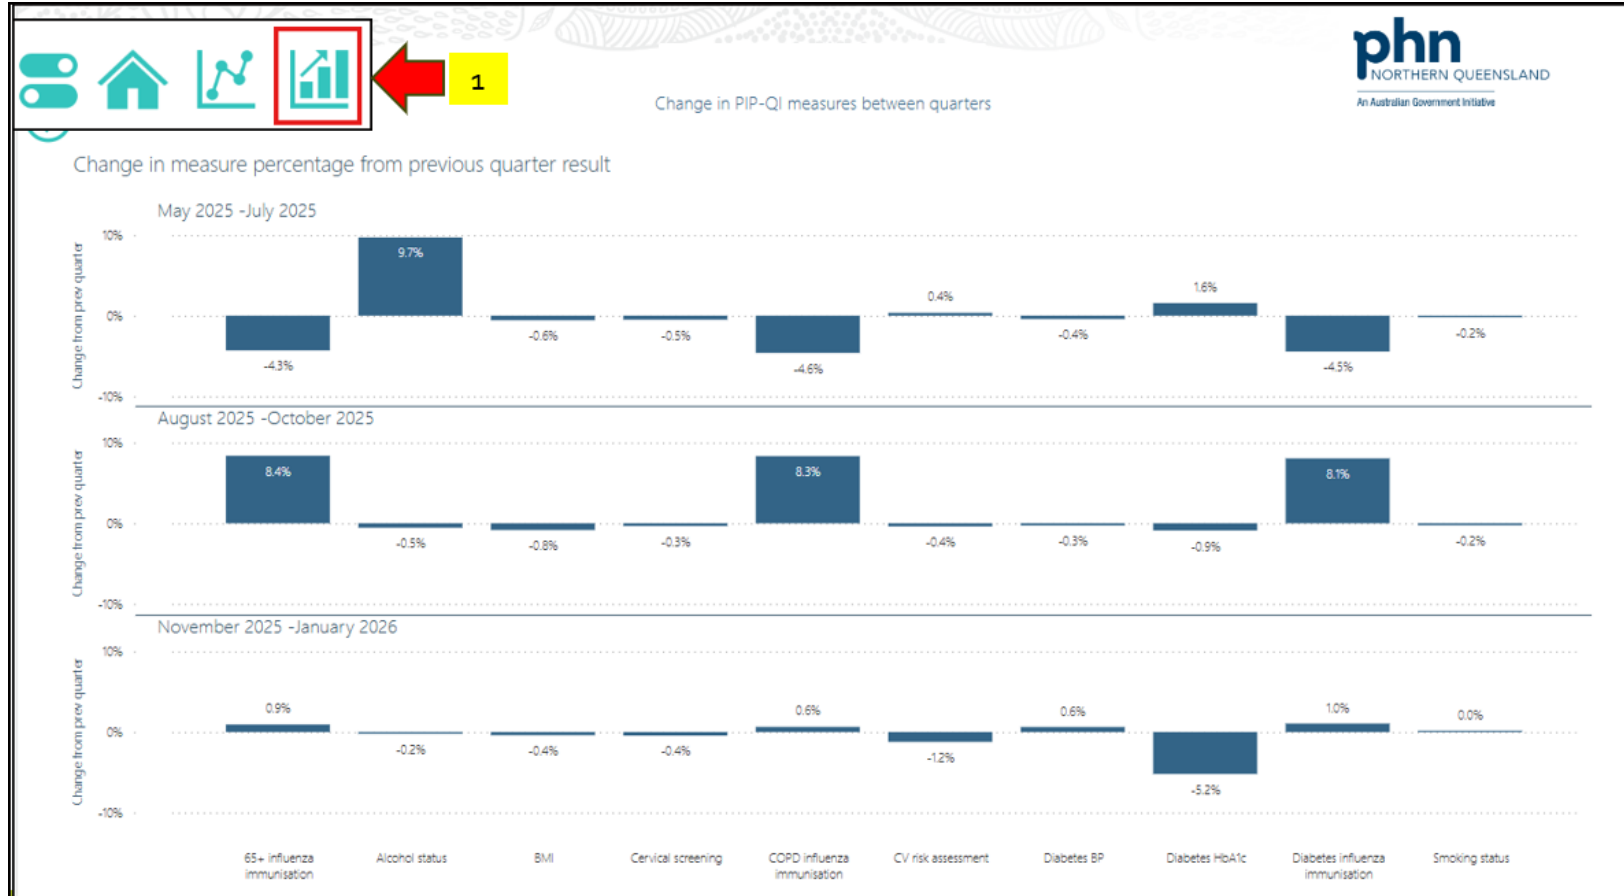

1. Click to show filters
2. See latest PIP QI Measure results by clinic location
3. See practice level PIP QI Measures over time.
4. See change between quarters

Performance over time

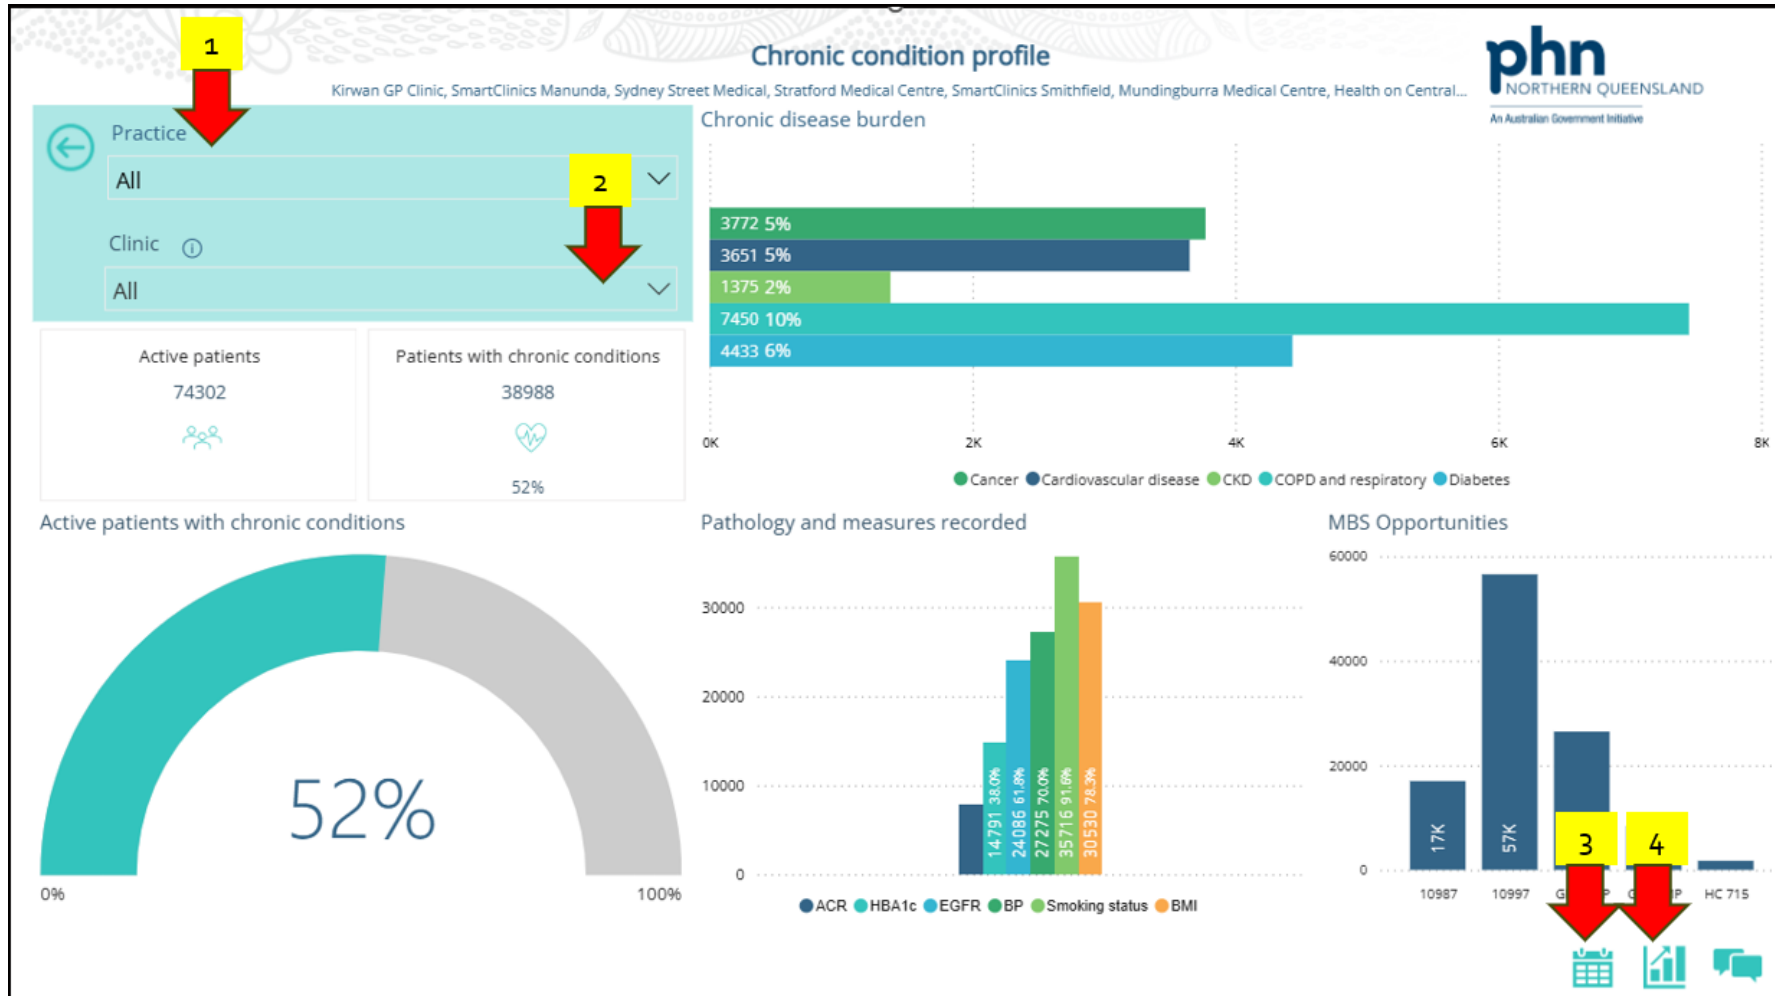

1. Select to see your performance over time
2. Click here either to select All or individual QI

Change between quarters

1. Change in measure percentage from previous quarter results

Chronic condition profile

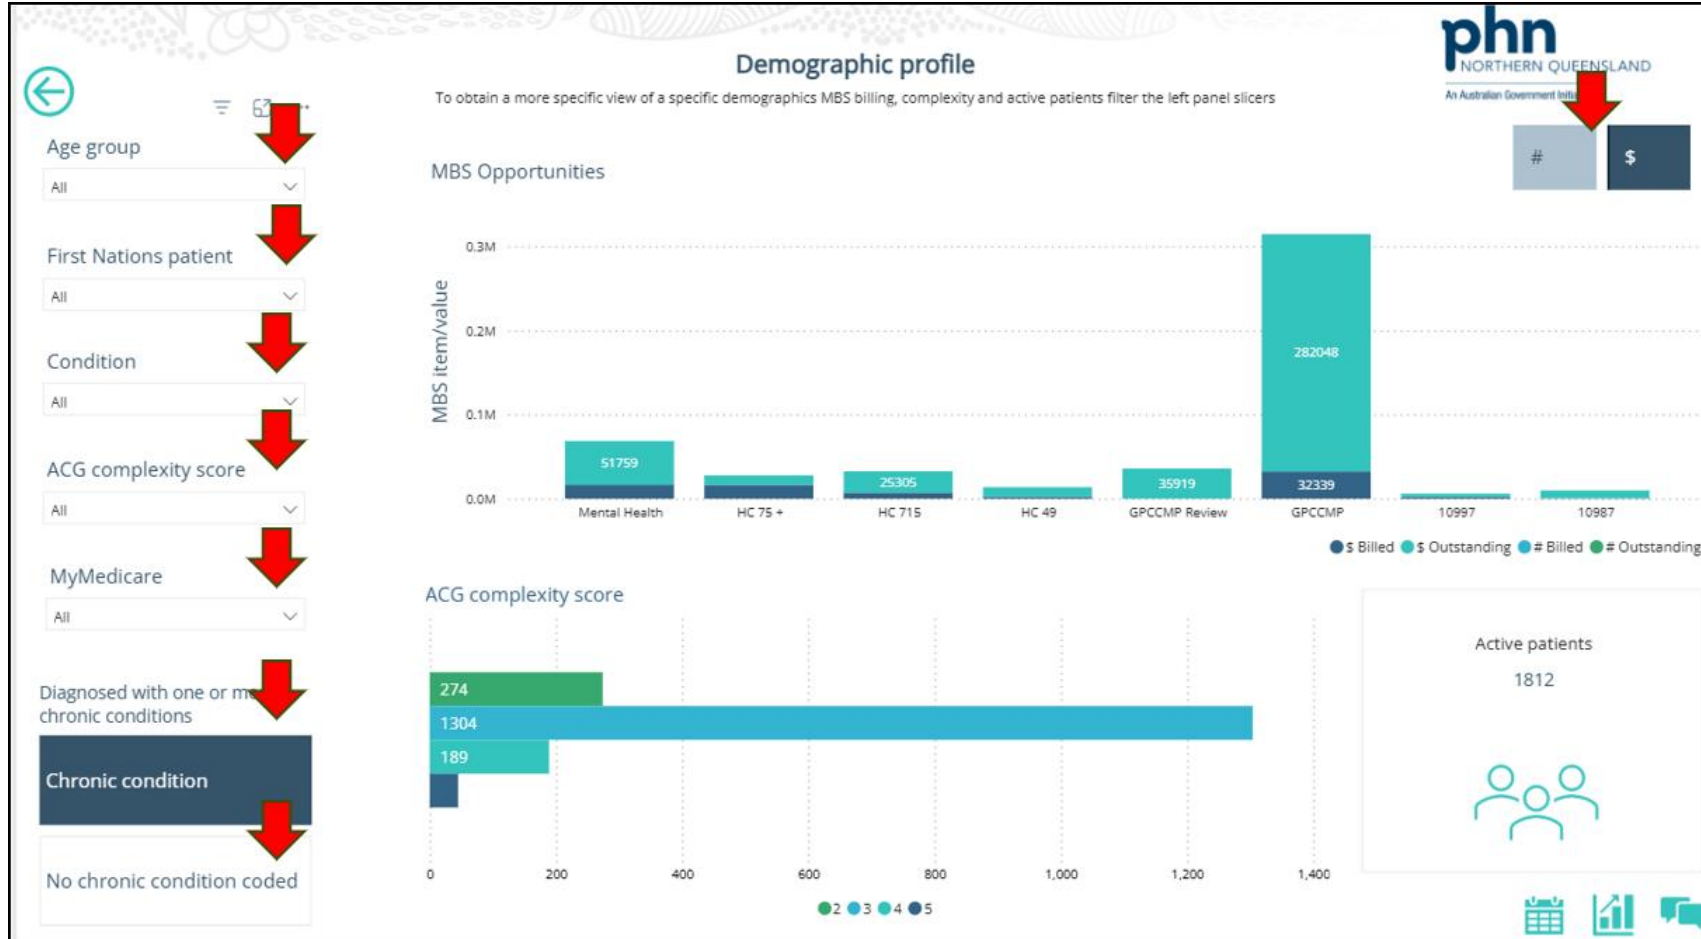

1. Select your practice
2. Select your clinic if you have more than one clinic
3. View trending of MBS Billing and patient usage of MBS over time
4. View trending of pathology, observation and vaccination measure over time.

MBA opportunities, pathology, measures, and chronic conditions

1. Select All or a condition
2. Select ACG Complexity score, either All or 2, 3, 4 or 5
3. Select Chronic Condition
4. Select No Chronic Condition coded

Demographic profile

The screenshot shows the NQPHN PS GP Dashboard interface. The top navigation bar includes 'All', 'NQPHN PS GP Dashboard', and 'CQI'. Below this is a menu with 'File', 'Share', and 'Export' options. Two red arrows point from yellow callout boxes to the 'Print' and 'Export' icons. The main content area features a central orange button labeled 'Visit the NQPHN website'. Below it are three yellow buttons: 'Health provider hub', 'Primary Sense', and 'Practice Incentive Program Quality Improvement Incentive (PIP QI)'. At the bottom are two more yellow buttons: 'Quality Improvement Hub' and 'Email pce@nqphn.com.au for support'. The left sidebar contains a list of navigation items: 'NQPHN PS GP Dashboard', 'GP Dashboard', 'Overview', 'Practice profile', 'Condition', 'Moderate complexity pati...', 'High complexity patients', 'MBS Opportunities', 'PIP QI Dashboard', 'Practice level', and 'Overview'. A 'Go back' button is at the bottom left.
