Find hidden opportunities in your practice data

Running your Health Assessment Report in Primary Sense

The **Health Assessment Report** helps identify patients who may be eligible for a Medicare-funded health assessment, creating benefits for both your patients and your practice.

Benefits for patients

- Early identification of health risks.
- Preventive care and health checks at the right time.
- Better management of chronic conditions and wellbeing.
- Improved access to appropriate care and support.

Benefits for your practice

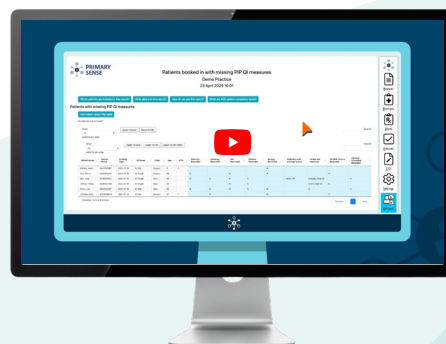

- Identify eligible patients quickly.
- Create targeted recall and reminder opportunities.
- Support quality improvement and accreditation activities.
- Enhance preventive care programs.
- Uncover potential **MBS billing opportunities** through completed health assessments.

When should you run it

- **Monthly:** To identify newly eligible patients and maintain a proactive recall program.
- **Quarterly:** Align with quality improvement reviews, Practice Incentives Program Quality Improvement (PIP QI) activities, and preventive health planning.

Not sure how?

NQPHN acknowledges the Aboriginal and Torres Strait Islander peoples as Australia's First Nation Peoples and the Traditional Custodians of this land. We respect their continued connection to land and sea, country, kin, and community. We also pay our respect to their Elders past, present, and emerging as the custodians of knowledge and lore.

ISO 9001
QUALITY

Turn data into action

Use your practice data to identify eligible patients, improve preventive care delivery, and maximise opportunities for both your patients and your practice.

Need support?

NQPHN's Primary Care Engagement team can help you run the report and identify improvement opportunities.

Run your Health Assessment Report today in Primary Sense

Primary Sense supports practices to use clinical data for population health management, quality improvement, and proactive patient care.

- ✓ **Better care.**
- ✓ **Better outcomes.**
- ✓ **Better opportunities.**

Take a few minutes this month to run your report – it's a simple step that can make a meaningful difference to your practice and your patients.

We're here to help

We can assist with:

- > running the report in your clinical system
- > understanding what the data means
- > identifying practical improvement opportunities
- > linking your data to your QI activities.
