Activity Work Plan

Urgent Care Clinic

2025/26 – 2028/29

Updated July 2026

NQPHN acknowledges the Aboriginal and Torres Strait Islander peoples as Australia's First Nation Peoples and the Traditional Custodians of this land. We respect their continued connection to land and sea, country, kin, and community. We also pay our respect to their Elders past, present, and emerging as the custodians of knowledge and lore.

Disclaimer

All activities captured in this Activity Work Plan are identified in the Joint Regional Needs Assessment conducted by Northern Queensland Primary Health Network and have been approved by the Department of Health, Disability and Ageing.

UCC-MUCC - 1 - Activity 1.1: Cairns Medicare UCC

Activity priorities and description

Program key priority areas

Population Health.

Aim of activity

The Australian Government is setting up Medicare Urgent Care Clinics (Medicare UCCs) to ease hospital pressure and provide more healthcare options for urgent, but non-life-threatening needs. These clinics will offer free services, extended hours, and accept walk-ins.

This initiative aims to:

- ensure timely treatment for urgent, non-life-threatening conditions
- provide safe, high-quality care
- coordinate care effectively
- offer a positive experience for patients and their carers
- alleviate pressure on emergency departments
- encourage the use of UCCs over Emergency Departments for non-life-threatening conditions
- form partnerships with various health organisations
- maintain cost-effectiveness.

The goal is to enhance urgent care in the Cairns regions, improving access for patients who cannot get timely care from their regular general practitioners.

Description of activity

Funding is allocated in line with specified allocations (Annexure D - UCC Funding Schedule). Contract management for the UCC will focus on the providers meeting and complying with the UCC Operational Guidelines and UCC Design Principles as developed and provided by the Department of Health, Disability and Ageing and Northern Queensland Primary Health Network (NQPHN).

NQPHN will:

- support close cooperation between the Medicare UCC, primary care services, local emergency departments, and the local health system
- undertake local communication activities to increase community awareness and understanding of the available services and conditions that are appropriate to be managed at the Medicare UCC
- support the Medicare UCC in upskilling and refreshing practitioners in clinical competencies
- notify the Commonwealth of any contractual non-compliance (including Medicare UCC 19.2) and work with the Department of Health, Disability and Ageing (DHDA) as required
- document, action, and notify the Commonwealth of any critical incidents in a timely manner
- continue to monitor risk, quality, and safety, informing the Commonwealth when required.

The 2025/26 financial year description of activities

- Ensure the UCC continues to meet the UCC Design Principles.
- Assist clinics in understanding operational requirements as outlined in Annexure E of the UCC Operational Guidance.
- Promote close cooperation between the Medicare UCC, primary care services, local emergency departments, and the local health system.
- Facilitate collaboration to establish referral pathways with local emergency departments, Queensland Ambulance Service (QAS), and other healthcare providers.
- Participate in relevant local and national Medicare UCC governance arrangements, including the national Community of Practice.
- Continue local communications activities to increase community awareness and understanding of the services available and the conditions appropriate for management within a Medicare UCC.
- Help the clinic understand their compliance responsibilities and provide relevant advice and education as needed.
- Continue to support clinics in completing new data fields as required.
- Notify the Commonwealth of any contractual non-compliance and, where relevant to the Medicare UCC's 19(2) Direction, work with DHDA as needed.

The 2026/27 financial year description of activities

- Continue to support the established UCCs to deliver services in line with the Departmental Operational Guidance document, with focus on updated requirements associated with Tranche 3.
- Provide urgent care upskilling/continuous professional development (CPD) opportunities to UCC clinical staff and broader primary care clinicians.
- Assist in the continued health literacy of the community regarding service provided by UCCs.
- Continue to facilitate interagency cooperation and collaboration between the UCC, local Hospital and Health Services (HHSs), Queensland Ambulance Service (QAS), local general practitioners, and the new Cairns North UCC.

UCC - PHNUCC - 1 - PHN Medicare Urgent Care Clinic(s) - Cairns North

Activity priorities and description

Program key priority areas

Population Health.

Aim of activity

The Australian Government is setting up Medicare Urgent Care Clinics (Medicare UCCs) to ease hospital pressure and provide more healthcare options for urgent but non-life-threatening needs. These clinics offer free services, extended hours, and accept walk-ins.

This initiative aims to:

- ensure timely treatment for urgent, non-life-threatening conditions
- provide safe, high-quality care
- coordinate care effectively
- offer a positive experience for patients and their carers
- alleviate pressure on emergency departments
- encourage the use of Urgent Care Clinics (UCCs) over Emergency Departments (EDs) for non-life-threatening conditions
- form partnerships with various health organisations
- maintain cost-effectiveness.

The goal is to enhance urgent care in the Cairns region, improving access for patients who can't get timely care from their regular general practitioner.

Description of activity

Following Northern Queensland Primary Health Network's (NQPHN's) comprehensive codesign in 2023, NQPHN will support ongoing relationships and referral pathway development between the Urgent Care Clinics (UCCs), their local Hospital and Health Services (HHSs), Queensland Ambulance Service (QAS) and local general practices.

The contract for the additional Cairns Urgent Care Clinic (UCC) will be executed following a competitive tender process.

Funding is allocated in line with specified allocations (Annexure D - UCC Funding Schedule).

Contract management for the Urgent Care Clinic (UCC) will focus on the providers meeting and complying with the Urgent Care Clinic (UCC) Operational Guidelines and Urgent Care Clinic (UCC) Design Principles as developed and provided by the Department of Health, Disability and Aging.

NQPHN will:

- support close cooperation between Medicare Urgent Care Clinic (UCC), primary care services, local emergency departments, and the local health system to establish an Urgent Care Clinic (UCC) within the Cairns North region
- undertake local communication activities to increase community awareness and understanding of the available services and conditions that are appropriate to be managed at the Medicare Urgent Care Clinic (UCC)
- support the Medicare UCC in upskilling and refreshing practitioners in clinical competencies
- assist clinics in understanding operational requirements as outlined in Annexure E of the UCC Operational Guidance
- facilitate collaboration to establish referral pathways with local emergency departments, Queensland Ambulance Service (QAS), and other healthcare providers
- participate in relevant local and national Medicare UCC governance arrangements, including the national Community of Practice
- document, action, and notify the Commonwealth of any critical incidents in a timely manner
- continue to monitor risk, quality, and safety, informing the Commonwealth when required
- apply the funding model as directed by Department of Health, Disability and Ageing (DHDA)
- complete and submit quarterly declaration documentation as required
- notify the Commonwealth of any contractual non-compliance and, where relevant to the Medicare Urgent Care Clinic's 19(2) Direction, work with the Department of Health, Disability and Ageing as needed.

The 2026/27 financial year description of activities

- Continue to support the established Urgent Care Clinic to deliver services in line with the Departmental Operational Guidance document.
- Provide urgent care upskilling/continuous professional development (CPD) opportunities to UCC clinical staff and broader primary care clinicians.
- Assist in the continued health literacy of the community regarding service provided by UCCs.
- Continue to facilitate interagency cooperation and collaboration between the UCC, local HHS, QAS, and local general practitioners.

UCC-MUCC - 2 - Activity 1.2: Townsville Medicare UCC

Activity priorities and description

Program key priority areas

Population Health.

Aim of activity

The Australian Government is setting up Medicare Urgent Care Clinics (Medicare UCCs) to ease hospital pressure and provide more healthcare options for urgent but non-life-threatening needs. These clinics offer free services, extended hours, and accept walk-ins.

This initiative aims to:

- ensure timely treatment for urgent, non-life-threatening conditions
- provide safe, high-quality care
- coordinate care effectively
- offer a positive experience for patients and their carers
- alleviate pressure on emergency departments
- encourage the use of UCCs over emergency departments for non-life-threatening conditions
- form partnerships with various health organisations
- maintain cost-effectiveness.

The goal is to enhance urgent care in the Townsville region, improving access for patients who can't get timely care from their regular general practitioner.

Description of activity

Following Northern Queensland Primary Health Network's (NQPHN's) comprehensive codesign in 2023, NQPHN will support ongoing relationships and referral pathway development between the UCCs, their local Hospital and Health Services (HHSs), Queensland Ambulance Service (QAS), and local general practices.

The contract for Townsville was awarded to Eastbrook Medical following a competitive tender process conducted at the same time. The Townsville contract novated from Eastbrook to Bupa on 31 January 2025.

Funding is allocated in line with specified allocations (Annexure D - UCC Funding Schedule).

Contract management for the Urgent Care Clinics will focus on the providers meeting and complying with the UCC Operational Guidelines and UCC Design Principles as developed and provided by the Department of Health, Disability and Ageing (DHDA) and NQPHN.

NQPHN will:

- support close cooperation between the Medicare UCC, primary care services, local emergency departments, and the local health system

- undertake local communication activities to increase community awareness and understanding of the available services and conditions that are appropriate to be managed at the Medicare UCC
- support the Medicare UCC in upskilling and refreshing practitioners in clinical competencies
 - whilst these activities are specific to the Cairns Urgent Care Clinic, the same process will apply and run concurrently with the establishment of the Queensland Health funded Townsville Medicare Urgent Care Clinic
- notify Commonwealth of any contractual non-compliance (including Medicare UCC 19.2) and work with DHDA as required
- document, action, and notify the Commonwealth of any critical incidents in a timely manner
- continue to monitor risk, quality, and safety, informing the Commonwealth when required.

The 2025/26 financial year description of activities

- Ensure the UCC continues to meet the UCC Design Principles.
- Assist clinics in understanding operational requirements as outlined in Annexure E of the UCC Operational Guidance.
- Promote close cooperation between the Medicare UCC, primary care services, local emergency departments, and the local health system.
- Facilitate collaboration to establish referral pathways with local emergency departments, Queensland Ambulance Service (QAS), and other healthcare providers.
- Participate in relevant local and national Medicare UCC governance arrangements, including the national Community of Practice.
- Continue local communications activities to increase community awareness and understanding of the services available and the conditions appropriate for management within a Medicare UCC.
- Help clinics understand their compliance responsibilities and provide relevant advice and education as needed.
- Continue to support clinics in completing new data fields as required.
- Notify the Commonwealth of any contractual non-compliance and, where relevant to the Medicare UCC's 19(2) Direction, and work with the Department of Health and Aged Care as needed.

The 2026/27 financial year description of activities

- Continue to support the established the Urgent Care Clinic to deliver services in line with the Departmental Operational Guidance document, with focus on updated requirements associated with Tranche 3.
- Provide urgent care upskilling/continuous professional development (CPD) opportunities to UCC clinical staff and broader primary care clinicians.
- Assist in the continued health literacy of the community regarding service provided by UCCs.

Continue to facilitate interagency cooperation and collaboration between the UCC, local HHS, QAS, and local general practitioners.

UCC - PHNUCC - 2 - PHN Medicare Urgent Care Clinic(s) - Mackay South

Activity priorities and description

Program key priority areas

Population Health.

Aim of activity

The Australian Government is setting up Medicare Urgent Care Clinics (Medicare UCCs) to ease hospital pressure and provide more healthcare options for urgent but non-life-threatening needs. These clinics offer free services, extended hours, and accept walk-ins.

This initiative aims to:

- ensure timely treatment for urgent, non-life-threatening conditions
